Re: **Notice of Minor Title V Permit Modification**
District Facility # N-2253
Project # N-1112285

Dear Mr. Rios:

Enclosed for you to review is an application for minor Title V permit modification for the facility identified above. Ball Metal Foods Container Corp LLC is proposing a Title V minor permit modification to incorporate the recently issued Authorities to Construct N-2253-15-10, '-16-10, and '-17-10 into the Title V operating permit. These Authority to Construct permits allow the facility to install a heat recovery system that redirects the exhaust from the shared thermal oxidizer into the first two zones of the curing ovens listed on these permits.

Enclosed is the engineering evaluation with the following attachments: proposed modified Title V permit, recently issued Authorities to Construct N-2253-15-10, '-16-10, and '-17-10, emission increases, application, and previous Title V permit. Please submit your written comments on this project within the 45-day comment period that begins on the date you receive this letter.

Thank you for your cooperation in this matter. If you have any questions, please contact Mr. Rupi Gill at (209) 557-6400.

Sincerely,

David Warner
Director of Permit Services
